# BEING A BEACON FOR PEACE

On Friday evening November 30th, the Peace Illuminations Light Project was launched. Tens of thousands of Los Angelenos were given the gift of a lighting art installation on a building on La Brea Boulevard. The installation was a stunning and dramatic piece on the concept of Peace - the word. Peace was presented in multiple languages including: English, Spanish, Korean, Russian, Hebrew, Arabic, Farsi (Persian), Chinese, French, German, etc.

The building was lit for a total of 11 nights, broadcasting a message of peace to the cities of West Hollywood and Los Angeles. A billboard donated by ClearChannel was placed on the corner of Santa Monica and Crescent Heights Boulevards letting drivers and passersby know of the lighting project and of the website ([www.peaceilluminations.org](http://www.peaceilluminations.org)).

The project launch included a community kickoff event hosted at the West Hollywood Gateway shopping center. With community choirs singing to dancing from little Russian girls dressed in country-western garb to the West Hollywood Master Chorale performing, it was a festive event!

Business owners donated goodies for revelers at the launch.

The project stimulates a conversation on the nature of peace in our large and diverse city, Los Angeles, drawing together and causing teams from various walks of life. The Mayor of West Hollywood and the City Manager attended the launch, as did many members of the community. Corporate and private monies and in-kind donations were contributed to sponsor this event including funds from Target, Combined Biz, Clear Channel Outdoors, West Hollywood Gateway and a variety of generous individuals.

Kuva Zakheim, artist, completed Team 1, Team Los Angeles

Leaders and teams came together to take control of various aspects of this project, such that there is almost no "doing" on my part - I simply had enrollment and registration conversations, then ongoingly maintained enrollment in the various groups involved.

They have been the ones causing the project and miracles to occur. They experience themselves as contributing enthusiastically to making a difference in the community.

What exists in the world is excitement, enthusiasm, and commitment among many individuals.

People are proposing enlarging the scale of this project from lighting one building to lighting multiple buildings to lighting buildings in multiple cities worldwide. We are looking to see how to enroll others in agreeing to take on the project and raise funds for it.

This project can grow larger and brighter each year.

I am building opportunities for communication on the nature of peace through the media of language and art and doing so in a way which is generous and non-threatening to any and all human beings. The intention is to cause a shift in the way human beings interact with one another on a large-scale level. It's an opportunity for groups of people to come together in a positive way creating a new realm of communication through a magnificent display of art and light.

-- Natalie Bergman, Team 2, Quarter 3, Team Los Angeles

# ASK ME WHY I'M M.A.D.

One of the most special people I have ever come across was Maddie Babineau. Maddie lost her battle with cancer on May 15, 2007. Her courage, strength, and wisdom touched people deeply. Maddie's smiles were contagious. She was known as the girl who gave away her wish.

Through the Children's Wish Foundation, Maddie gave her one wish away to kids in Africa. By building a school in a rural community in the Maasai Mara, Maddie helped children receive the gift of education. She further raised funds to bring water to the community by building a well and continued to fundraise on her own so she could realize her ultimate dream of fully adopting this Kenyan community.

Students are proud of their new schoolhouse.

After the Team Management and Leadership Program Weekend in Newport Beach back in June 2007, I was inspired to create a run of some sort involving teens. It was my daughter, coincidentally named Madison, who suggested we use this run to carry on her schoolmate's legacy. I loved this idea and created a Game in the World entitled "Run Like You're M.A.D (Making A Difference)". Through sharing, I immediately had two team members, my daughter and Maddie's mother, Sharon Babineau!

This run has spawned an enormous interest within the teenage community and within the schools. I have a team of more than 30 people working at creating the magical event. People are literally showing up and demanding to join the team. What these people truly see is possibility – for themselves, their students, their families, and, most notably, for the children who live in poverty with no access to education or clean water.

Maddie's family hopes to see the dream of "Maddie's Village" become a reality. To support Maddie's wish to Adopt a Village, visit the site [www.maddieswishproject.com](http://www.maddieswishproject.com) which her family has created. Together, we can carry Maddie's legacy forward and make her dream come true.

Unbelievable results! Unbelievable conversations! Brian Melo, Canadian Idol winner is hosting the event. The Free the Children Foundation is our prime supporter. We'll have press coverage on CNN and CBC programs highlighting Maddie.

It's about being on a rampage for communication! And, the winning is easy. My game wins because it is not about me. For three quarters, I played small - as an identity. The second I gave that up, ridiculous results were produced. **OUR** event is planned for the first week in May 2008. It promises to have over 7000 teens making a difference and "Being" Leadership. Young teens, Maddie's best friends, and teachers - witnessing people see themselves M.A.D. – making a difference - has caused enormous fulfillment in my life. All this and seeing my own daughter stepping into her leadership and excited about something so huge has left me in awe of the results. Speaking the words, being in communication, and watching it unfold just because I said so. Succulent!

Craig and Marc Kielburger published a book called "Me to We". I am so clear on what that title means. **WE** are taking steps in the right direction. **WE** are making a difference in the world. I truly thank the Team Management and Leadership Program body and Landmark Education for allowing me the opportunity to grow into an individual that chooses to be **ALIVE!** I got my life out of this program and I got a relationship with my daughter in the most unexpected way! It's the fulfillment of the reason I signed onto this program.

The time is **NOW**. Be the difference!

Who I am is a stand in the world for eradicating poverty and suffering in the world, and ensuring that every child has the basic right to go to school. Making a difference is easy – you just have to declare that you will be it, do it, and your word will build your world!

# Conversation Creating a Course

## MEXICO CITY - ACCESS to POWER

Hello!  
I'm sharing with you what we created today (October 18, 2007) for this weekend in our conversation between Jorge Castro (Communication Course Leader) and us (the coaches).

This weekend is not only about a Communication Course in Mexico. We are creating the Future of the Communication Courses in Mexico where the whole world is going to talk about what Mexico is creating, building, and achieves.

We are creating the possibility of Mexico Being Transformed, Powerful, Prosperous, United, and Extraordinary in its Contribution for the World. Communicating with Honesty, Love, Free, Fully Self-Expressed, and Responsibility with Fun.

This is the last bridge between the United States, Canada, and Mexico.

Mexico is the best solid Foundation for the future of Latin America and the Development of Latin International Leaders. This weekend starts the communication that all Latin is going to communicate the way that never could imagine before and where everything is possible in communication.

What is present is greatness, transformation, the miracle to live passionately, and with responsibility. A country transformed with generosity and love. A great opportunity for the powerful communication of a country which is living in resignation and that this is the beginning of the opportunity for the powerful human being, free and a wonderful familiar union. A great Access to Power to use for the transformation of Mexico and Latin America. Global Communication. Generosity that is open to the whole world.

It's not about us, it's about others, about the world. We are so connected that we are one. Sharing this too.

Hola!  
Estoy compartiendo con ustedes lo que creamos hoy (Octubre 18, 2007) en nuestra conversacion de asesores y Jorge Castro (Lider de Cursos de Comunicacion) para este fin de semana en Mexico.

Este fin de semana no es solo un Curso de Comunicacion en Mexico. Estamos creando el Futuro de los Cursos de Comunicacion en Mexico en donde el mundo entero se va a hablar acerca de lo que Mexico esta creando, construyendo, y logrando.

Estamos creando la posibilidad de un Mexico Transformado, Poderoso, Prospero, Unido, y Extraordinario en su Contribucion en el Mundo. Comunicando con Honestidad, Amor, Bienestar, Libertad, AutoExpresion completa, y Responsabilidad con Diversion.

Este es el ultimo eslabon entre Estados Unidos, Canada, y Mexico.

Mexico es la plataforma, la Fundacion mas solida para el Futuro de America Latina y el Desarrollo de Lideres Latinos Internacionales. Este fin de semana va a marcar la comunicacion que todo latino va a poder comunicar de la manera que nunca se pudiera imaginar y que todo le es posible en comunicacion.

Lo que esta presente es grandiosidad, transformacion, el milagro de vivir apasionadamente, y con responsabilidad. Un pais transformado con generosidad y amor. Oportunidad grandiosa de una comunicacion poderosa, de un pais que vive en una resignacion y que es el comienzo de una alborada para la oportunidad de seres humanos poderosos, libres y una gran union familiar. Un grandioso Acceso al Poder para uso de la transformacion de Mexico y America Latina. Comunicacion Mundial. Generosidad que se abre a todo el mundo.

No es acerca de nosotros sino de los demas, del mundo. Estamos tan conectados que somos uno solo. Compartelo tu tambien.

-- Rosalia "Excited and Unstoppable" Arvizu, completed Team 2, Feb. '07, Team San Diego

Teampayer:

One who unites others toward a shared destiny through sharing information and ideas, empowering others and developing trust.

-- Dennis C. Kinlaw, Author of [Coaching for Commitment](#)

# The Wave for Peace enters the Super Bowl

## Feb. 3<sup>rd</sup>, 2008

Who I am is the possibility of peace, love, and inspiration. This possibility arrived as I was watching the Free Hugs Campaign on YouTube a year ago in the mountains of Colorado. From that experience, I envisioned a world of peace. What that looked like for me was that, for one moment in time, the entire world be present to peace.

### The Vision

In every sporting event for years, people have been participating in the Wave that usually goes in the clockwise direction. The vision is to have the Wave go in a new direction. This new direction will represent Peace. The Wave for Peace would be the symbol of "What If?"

**What if we do something different and choose to live in a world of Peace? A wave for change is the wave for peace.**

This wave would be the Wave for Peace. Billions of people across the world would be watching this event. What better way to get the message across to the world?

I had only 3 months for my Self Expression and Leadership Program project to get this idea into action. The Wave for Peace enters the Super Bowl on Feb. 4<sup>th</sup> 2007 in Miami, Florida.

The Wave for Peace didn't happen last year at the Super Bowl.

What did happen?

Three schools in Broward County had a Week of Peace. The Week of Peace brought awareness to our environment, our homes, and our communities. We had an incredible TEAM of teachers and students that created this event at each school. On Jan. 31, 2007, over 2500 students went out to their football fields and participated in the Wave for Peace. The Wave was seen from the air by a helicopter. Other media sources covered the event such as NBC, Telemundo TV, and the Miami Herald.

We may never know the impact that event caused for those students, but we do know that the fights and suspensions were down for the week at our school. The question we asked the students daily was "How can each one of us make a difference in our own lives to bring peace?"

November 2007

I joined the Team Management and Leadership Program at the Denver Weekend. I learned that I have a Game in the World to create and put into action. I was informed that I would create a TEAM of people to play and fulfill on this game.

What I hadn't anticipated was that we are all being confronted with our own greatness, integrity, and power. Communication is an access to power in creating the world in which we want to live. What I am getting from this experience is that peace is a way of being and we get to choose in every moment of our lives. Who are we going to be in the present moment and next moment no matter what?

The GAME is still expanding and my request of TEAM Landmark is to further this game so that on Super Bowl Sunday on Feb. 3<sup>rd</sup>, 2008 every person in the world is present to **world peace as a possibility now!**

Future: Global Weekend Los Angeles, CA, February 2008

- 1.Video of the Wave for Peace is captured during the Super Bowl Feb. 3, 2008, and shown to all Team Management and Leadership Program participants at the Global Weekend.
2. People from all over the world are contacting the NFL, the TV network, and Landmark Education to say how incredible the event was for them and how it transformed their lives.
- 3.World Transformation is realized. Every country is supporting each other in creating the possibility of peace, health, and happiness!!

### One Event, One TEAM, One Message for One Moment

Our TEAM is looking for other people that are up to world peace. How can you further the game?

-- Linda Gancitano, Team 1, Quarter 1, Team Florico

Interested in playing this game for world peace, contact Linda through [tmlptimes@yahoo.com](mailto:tmlptimes@yahoo.com)

**"Peace is not merely a distant goal that we seek, but a means by which we arrive at that goal."**

**- Martin Luther King Jr., Civil Rights Activist, Nobel Peace Prize Recipient, 1929 - 1968**

After completing my first Team Management and Leadership Program Weekend, I was so enthralled with the Game in the World display boards, that I took on attempting to read each and every game that others across the continent were up to. I found there wasn't enough time. My second Weekend, I took on allowing enough time and still got overwhelmed! First off by the magnitude and magnificence of these astounding

On the weekly accountable call, I got present to someone in NYC playing a similar game to someone on my team. I put them in touch with each other. It's been exciting! Not only have I furthered my own game and growth, I'm helping further others' games and growth as well.

Out of the conversations with seminar participants, I

# Keeping It Simple Sensationally!

individuals that I too wanted to become. Once more I couldn't complete reading them all. For me, though fascinating, some games were so long to read that breaks went too quickly. It sparked the following idea for my Access to Power accountability last quarter and my Game in the World accountability this quarter.

I created the **Possibility** of relatedness & communication with abundance & fun!

Being that I live in Orlando without a local center close by, I decided to further Communication at the Orlando Seminars.

I put together a tri-fold display board labeled Team Management and Leadership Program - Team Florico (Florida + Mexico!). I decided to **K.I.S.S.** it and created a template 4" x 5.5" with each of Team Florico's Games in the World. Each has a picture related to their game, the name of their game, their names, the possibility they are creating, and their outcomes in two to three sentences.

By laminating and putting a piece of Velcro onto the back of each template, I am able to rotate all the games, including last quarter's to keep the conversations alive & fresh. Each week the Games in the World display changes.

The board caused quite an interest within the Seminar. I found that few had ever heard of the Team Management and Leadership Program and the questions flew. The interest and conversations around the games were stimulating!

I've taken to getting related to each member of my team with a phone conversation. The outcomes were amazing for me! I obtained a wealth of information about each as individuals - what each are up to. We shared our games and got present to the fact that others' games had similar lessons and/or attributes to offer myself and to others. I began putting people in touch with each other.

obtained Access to Power and Power to Create registrations and potential TEAM players. I got very much related to my TEAMmates as amazing individuals with an abundance to offer to many.

I got to grow in contribution in ways I never saw possible, all by *Keeping It Simple Sensationally!*

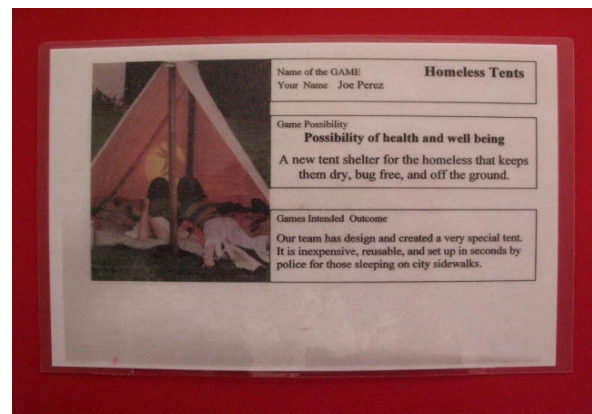

*Be with the conversation & relate, relate, relate!!!  
Magic happens!*

And I believed I played too small!!! Imagine that!!!

-- Karen Rudolf, Team 1, Quarter 3, Team Florico

Angel Flight, Mark Mirin, Team Florico

Homeless Tents, Joe Perez, Team Florico

**The ACCOMPLISHMENT DOCUMENT:** A resource, an opportunity to become present to who you are and what you have accomplished as leaders and humanitarians, as committed men and women creating love, abundance, and the fulfillment of dreams. Use this as a tool to create completion and to generate the expansion of your Game in the World or any endeavor from clarity and power. Why not take 15 minutes with another team member, go over your accomplishments together and enjoy the fruits of your leadership! Go ahead ACKNOWLEDGE YOURSELF and BE ACKNOWLEDGED!!

Name: **Timothy Lee, Team San Francisco**

Name of Game: **Landmark Transformation in the World**

Realm of Game/ City/ Country: **Asia – Shanghai, China**

Possibility: **Being Unconditional Love with Unreasonable Self-Expression**

Outcome: **Landmark Forum in Shanghai in 2008**

**What were you intending to accomplish out of taking on your GITW?**

Introducing Landmark Education in Shanghai which is the biggest and most influential City in China. Use the successful model in Shanghai. Landmark Education will spread over the China. Eventually, the impact will spread over the entire Asia.

**What have you actually accomplished?**

I created a team in US and a team in China. Both teams had a common mission - Assisting Landmark Education Forum in Shanghai in 2008.

Since last quarter, I generated my game in the world. I visited the site in Shanghai personally two weeks to find out the necessary information about logistical supports (such as good deals for dining areas and hotels and sightseeing point of interests) for future volunteer workers who would like to work in Shanghai for Landmark Education.

**Who are you as a world leader because of this game?**

I feel I am a world leader in my game.

**How have people on your teams shown up as world leaders out of their participation in the game?**

My team members also have the same feeling as world leader in the game.

**Where did team show up elsewhere in the world that was unexpected?**

**(Are there other games being created by people inspired by this game?)**

Yes, team members show much interest in generating another new game - Desperately want to learn more and understand Asia culture especially about Chinese culture and the City in Shanghai. Team members had held several meetings to visit San Francisco Asia Museum and China town.

**Does communication exist in a way that was not thought possible prior to your game?**

Yes, team members have telephone conference every week on Wednesday night.

**Does this game impact a continent, country, city, and/or community? How?**

Yes.

**Has your game attracted media attention?**

Not yet.

**Will this game generate itself?**

I start to see the game generate expansion by itself.

**What are you building with this?**

I will building this to fulfill my dream " Unconditional love with Unreasonable Self -Expression and introducing a new culture to China - "Landmark Education".
